Intended Outcome

Every company is headed by a board, which assumes responsibility for the company's leadership and is collectively responsible for meeting the objectives and goals of the company.

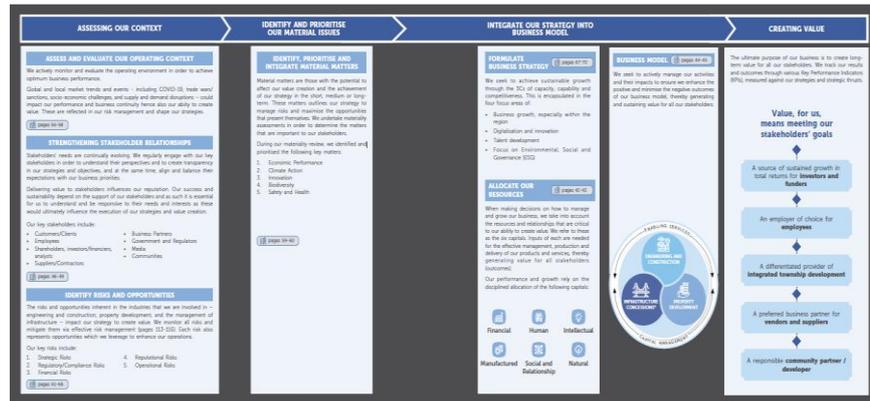

Practice 1.1

The board should set the company's strategic aims, ensure that the necessary resources are in place for the company to meet its objectives and review management performance. The board should set the company's values and standards, and ensure that its obligations to its shareholders and other stakeholders are understood and met.

Application	:	Applied
Explanation on application of the practice	:	<p>The Board of Directors ("Board") of Gamuda Berhad ("Gamuda" or "Company") recognises the importance of maintaining adequate corporate governance practices within Gamuda and its subsidiary companies ("Group") and devotes considerable effort to identify and formalise best practices. The Board sees corporate governance as an integral part of the Group's business strategy.</p> <p>The Board believes that sound and effective corporate practices are fundamental to the smooth, effective and transparent operation of a company and its ability to attract investment, protect the rights of shareholders and stakeholders, and enhance shareholder value.</p> <p>The Board will continuously evaluate the status of the Group's corporate governance practices and procedures with a view to adopt and implement the best practices in so far as they are relevant to the Group, bearing in mind the nature of the Group's businesses and the size of its business operations.</p> <p>The Board is responsible for the long-term success of the Group and the delivery of sustainable value to stakeholders. Hence, the primary role of the Board is to protect and enhance long-term stakeholder value. It sets the overall strategy for the Group and supervises executive management. It also ensures that good corporate governance policies and practices are implemented within the Group. In the course of discharging its duties, the Board acts in good faith, with due diligence and care, and in the best interests of the Company and its shareholders.</p> <p>A framework of delegated authority is in place consistent with the structure of delegation below the Board level. The Board reserves to itself certain key matters to approve, including the Group's strategic plans, major capital expenditure, corporate governance issues, dividend policy and external financial reporting.</p>

The Board delegates responsibility for the day-to-day operation of the business to the Group Managing Director who recognises his responsibility for ensuring that the Company operates within a framework of prudent and effective controls.

In discharging his duties in leading the Company with due care, skill and diligence, the Company led by the Group Managing Director is driven and guided by the Value Creation Strategy as illustrated below and as set out on pages 40 to 41 of the Integrated Report 2022: -

The aforesaid Value Creation Strategy has been formalised and disseminated to employees and continuously reinforced throughout their tenure with the Group.

In seeking to create value for Gamuda and its stakeholders, Gamuda adopts an integrated approach that considers key trends in its operating environment that has an impact on its operations; the needs and expectations of its stakeholders; as well as key sustainability issues. Gamuda assess the risks and opportunities of these various factors in order to develop a business strategy that will steer Gamuda towards attaining its corporate goals and our ability to create value in the short, medium and long-term. Throughout this entire value creation chain, Gamuda remain cognisant of our values and uphold the highest standards of governance to ensure that everything we do reflects our commitment to integrity, transparency and sustainability.

As illustrated above, Gamuda seek to chieve sustainable growth through the 3C's of capacity, capability and competitiveness. This is encapsulated in the four focus areas of:

- ▶ Business growth, especially within the region.
- ▶ Digitalisation and innovation.
- ▶ Talent development.
- ▶ Focus on Environmental Social and Governance (“ESG”).

The Management’s performance under the leadership of the Group Managing Director is monitored by the Board. More details affecting business units, ground operations, strategies and performances are usually presented and discussed at the Board Meetings including specific matters that are reserved for the full Board’s decision, as follows: -

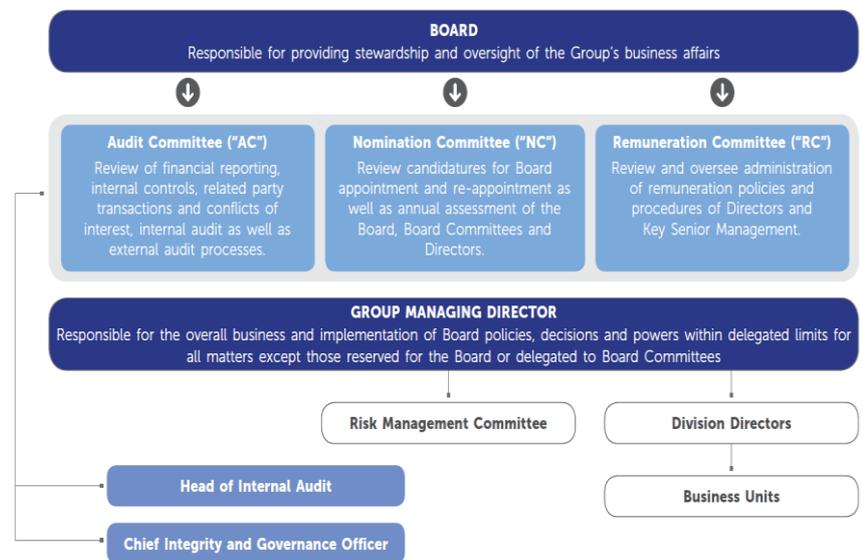

- ▶ key corporate strategies and plan involving acquisitions and disposals of material assets; and
- ▶ major investment decisions affecting the Group’s direction and policies and approvals of all financial results and announcements.

The relevant members of the Management are always in attendance at Board meetings to present these updates on the progress of key initiatives, business targets and achievements to date, and to provide clarification on the queries and issues raised by the Board. The Group Managing Director and the Management are neither substantial shareholders nor controlling shareholders of the Company.

The Chairperson of the Audit Committee would inform the Directors at the Board Meetings, of any salient matters raised at the Audit Committee Meetings and which requires the Board’s notice or direction.

The Head of Legal and Company Secretarial who is also the Joint Company Secretary, is also in attendance at the Board Meetings to respond to any enquiries by the Board on legal and regulatory matters of the Group.

As depicted in the illustration below, Board Committees have been established to assist the Board in its oversight function with reference to specific responsibility areas. It should however be noted that at all times, the Board retains collective oversight over the Board Committees. These Board Committees have been constituted with clear terms of references and they are actively engaged to ensure that the Group is in adherence with good corporate governance: -

All these Board Committees report to the Board on all matters they have considered and recommended. The Board Committees exercise transparency and full disclosure in their proceedings. Issues deliberated by the Board Committees are presented to the Board with appropriate recommendations. The ultimate responsibility for the final decision on all matters lies with the Board.

The Audit Committee assists the Board in the discharge of its fiduciary duties, overseeing the financial reporting process and ensuring that the results of the Company's operations are fairly presented in its financial statements. A full Audit Committee Report is set out on page 117 of the Integrated Report 2022.

The Board is satisfied that risk management policies and procedures designed and implemented by the Management of the Company through the Risk Management Committee is prudent in ensuring that an effective internal control and risk management systems are in place to enable risk to be assessed and managed. A Risk Management Committee Report is set out on pages 113 to 114 of the Integrated Report 2022.

Pursuant to its terms of reference, the Nomination Committee was established in 2002 to assist the Board in carrying out the following duties:

- ▶ to review, from time to time, the Policy Framework on the nomination and recommendation of candidates to be members of the Board;
- ▶ to review annually the Board's required mix of skills, experience and other qualities including the core competencies which non-executive directors should bring to the Board;
- ▶ to assess annually the effectiveness of the Board as a whole and the Audit Committee respectively;
- ▶ to identify suitable training programmes for the Directors for each financial year end.

The Terms of Reference of the Nomination Committee is available for reference on Gamuda's corporate website at www.gamuda.com.my or for easy access, please scan the QR code below with a smartphone:

The Nomination Committee in assessing the performances of the Board as a whole on an annual basis also considers the succession planning for the Principal Officers of the Company.

We have rolled out our Leadership Competency Framework to streamline and formalise our approach to developing our people and strengthen succession planning. One of the main highlights that stemmed from our aim to enhance leadership amongst our people is our Leap to Lead initiative.

Launched in February 2019, Leap to Lead involves series of ongoing leadership talks that address the three pillars of the Leadership Competency Framework – business savvy, self-savvy and people savvy. Taking the first step towards this change of culture, external speakers are brought in to complement the insights provided by our own people. This is done to provide a broader perspective of how to demonstrate leadership in the workplace, regardless of rank. During the financial year under review, one dialogue session was held on 29 April 2022, the details are as follows:

Topic : Visioneering Your Organisation as a Leader

Panellist :

- Zaim Mohzani
External Affairs Director of
KSI Strategic Institute for Asia Pacific
- Khariza Abd Khalid
Executive Director of Gamuda Land
- Chu Wai Lune
Chief Operating Officer of Gamuda Land

Gamuda aspires to churn out leaders who can take on important roles, agile and adaptable to constant change. We strongly believe that the Leap to Lead initiative can play a significant role in achieving this. We take pride in our talent pool and believe that Gamudians can leverage each other's strengths to give Gamuda a competitive edge.

Across the Group, the Company has put in place a structured Group-wide leadership succession planning review process for key senior management positions, assessing the capacity, level of readiness and aspiration of this leadership pool during the financial year under review. With millennials and generation Y employees comprising 40% of the workforce in Gamuda, the Group sees the need for more of them in senior management ranks. This is necessary for the Group's long-term growth. Gamuda started by identifying good talent with great potential, and placing them in critical roles while moving them up the value chain as part of development and succession planning.

Meanwhile, our succession plans are well underway, as reflected in the changing face of our Board and senior management teams. Young leaders in their 30s now fill at least half of our Board seats and executive positions across Gamuda Engineering and Gamuda Land. Gamuda believe strongly that these young leaders with long runways ahead of them will be able to steer the Group in the new directions we are pursuing with the increased prominence of digitalisation and ESG in our day-to-day business.

In line with the Group's transition and succession plans, more is expected from high potential next generation leaders within Gamuda Group who demonstrate ownership, strategic analysis and critical thinking to move up to key senior management positions in the near future. For this purpose, Mr. Justin Chin Jing Ho was appointed as the Alternate Director to our Deputy Group Managing Director, Y.Bhg. Dato' Ir. Ha Tiing Tai. Mr. Justin Chin's profile is set out on page 91 of the Integrated Report 2022.

The business environment has significantly changed and continues to evolve at a fast pace; driven by the two powerful transformative forces of climate action and digitalisation. The younger leaders of Gamuda will lead the charge, positioning Gamuda Group to benefit from new business opportunities that arise from this new reality particularly in circular construction, renewable energy, data and analytics. Gamuda experienced senior staff will continue to play crucial roles in the Group's operations as strategic advisors in guiding, mentoring and coaching these younger leaders.

There is a growing interest among the Company's employees to explore different ways to harness technology, whether it is to automate or improve on daily deliverables. This is evident from many of the great initiatives seen across the organisation, such as in BIM and IBS, where pockets of innovation had been recognised with industry awards. To keep this culture of creative collaborative growing, a community known as Gamuda Excellence Transformation ("GET") has been set up last financial year. GET aims to elevate digital excellence across Gamuda and catalyse the development of real, people-driven solutions regardless of project background.

Moving on to remuneration of the Board, the Remuneration Committee's main responsibility is to review and recommend the framework of Executive Directors' remuneration to the Board, in particular, the remuneration packages for the Executive Directors in all its forms, drawing from outside advice, where necessary and fees payable to the Non-Executive Directors.

The Remuneration Committee aims to ensure that Directors' remuneration is competitive, motivates good performance and loyalty, and supports growth in shareholder value. The remuneration of the Non-Executive Directors takes the form primarily of fees, which is approved by the Company shareholders.

The Board recognises Investor Relations ("IR") as a key component of its Corporate Governance obligations. To meet the high expectations of the investment community, the Board has set up a dedicated IR unit headed by the Group Managing Director, and assisted by the Senior Group General Manager, Investor Relations, to provide direct access to top management in all matters pertaining to IR. To enhance the effectiveness of the IR unit, the Board has instituted a comprehensive IR policy and programme. Details of the Investor Relations are set out from pages 78 to 80 of the Integrated Report 2022.
